

## **REMARKS**

The present Amendment makes editorial revisions in the claims, to better conform the claims to the requirements of §112, second paragraph. No new matter is added thereby.

In a telephone discussion with the Examiner on August 9, 2003, the Examiner stated that the attachments which were identified in the Response to Restriction Requirement, received at the Patent and Trademark Office on December 9, 2002, apparently had become separated from the copy of that Response in the Patent and Trademark Office, and the Examiner requested that an additional set of those copies be submitted. Such an additional set is attached hereto.
